I am an insightful and enthusiastic young man. I have skills that allow me to position myself in various spaces, environments and fields of action. I have experience on **Web Development**, **Graphic Design**, focusing on **Brand Design** and **User Interface/Experience Design**.

I am an **IEEE member**, very **proactive** and **passionate** about learning and achieving great results. When I encounter challenges, I take them on and do my best to solve them.

With a bit of background music and a lot of energy I focus my days on learning and developing my skills to become competent in the area of brand design and web development. Thanks to experience and passion to obtain more, it is easy for me to fit into the area that is requested, as I am open to challenges.
